

## COL D'ILLOIRE

Departure: the village square (D)

First go upstairs on the right side, between the restaurants. Then turn left on the Rue Haute.

Keep straight till the exit of the village and then continue straight ahead.

Walk along the campsite of l'Aigle.

50 m after the campsite follow the path on your right into the slope.

Continue straight ahead.

After 40 min walk you reach the D71 road.

Straddle the wooden fence and cross the road. Please, pay attention to the traffic!

Continue to the left for 10 m and take the right path which intersects the curve of the road.

Please, beware, it ascends a little!

Just one little effort more and, voilà, there is the parking of the Col d'Illoire (A).

There is a picnic area, in the pines just to the right of the belvedere.

The return is possible via the same path or via the D 71 road toward the campsite of l'Aigle (2 km – 200 m of elevation). Please, pay attention to the traffic! Immediately after the campsite, turn right onto the GR 99 (the long French hike), marked red and white, toward the "Table d'Orientation" which is to the right of St. Peter's Chapel. After having admired the beautiful landscape, go down the Rue Haute and continue to the village square
